Hypnos Legacy Collection

The Legacy Origins collection features generous layers of traceable British wool certified to the Responsible Wool Standard.

Hypnos' expertly engineered pocket springs, ReActivePro™ DUO, with 10 active turns, provide total body comfort whilst Triple Edge Protection™ gives true edge-to-edge support.

ReActivePro™ DUO pocket springs consist of a double layer of pocket springs designed to meet Hypnos' softer comfort requirements, with perimeter frames and 3 rows of firmer tension springs at the edge for support. Each spring is at least 5 turns, so combined are over 10 turns and are lighter-weight springs. Each spring layer engages separately, depending on weight and size, providing a graduated feel and cushioned support.
