Tempur Southwold

With its straightforward square design and clean edges, the TEMPUR® Southwold headboard's understated styling appeals to those with minimalistic tastes.

The Southwold Headboard may be purchased as a unique item, but it also co-ordinates with all Suffolk [divans](#), [ottomans](#) and [adjustable](#) bed bases.

Designed to flush fit against the wall with any standard divan base with bolt fixings, our floor standing headboards are made to order in one piece with slots in the base. These enable you to secure them to your bed base.
