FAMILY FURNISHERS SINCE 1930

Hypnos Ortho Support 7

A handcrafted, firmer feel pocket sprung mattress made with responsibly sourced materials – perfect for sleep, better for the environment.

Each individual pocket spring inside this firm double-sided mattress adjusts to follow the contours of the body, allowing the generous layers of natural cotton to provide cushioned support.

As part of the Origins collection, it has a beautiful and luxurious unbleached cotton sleep surface, that is fire-resistant without the need for FR chemicals.

Traditionally hand-tufted with wool tufts to secure mattress fillings in their correct position and stop fillings moving or going lumpy. Hypnos Orthos Support mattresses are available in two comfort level options; 'firm' and 'extra firm' spring tensions.
